PROFESSIONAL SUMMARY

Android Developer with hands-on experience in building real-world Android applications using Kotlin and modern Android tools. Strong understanding of clean architecture, REST API integration, and Firebase. Comfortable working independently and with teams. Actively learning and improving with a focus on writing clean, maintainable, and user-friendly apps.

TECHNICAL SKILLS

- **Languages:** Kotlin, Java
 - **Android:** Jetpack Compose, XML UI, Material Design
 - **Architecture:** MVVM, Clean Architecture (Basics)
 - **Networking:** Retrofit, REST APIs
 - **Database:** Room, Firebase Firestore, Firebase Realtime DB
 - **Async:** Kotlin Coroutines
 - **Tools:** Android Studio, Git, GitHub
 - **Other:** JWT Authentication (Basics), API Integration
-

WORK EXPERIENCE

Android Developer Intern

Aug – Dec 2025

Startup (Sweden, Remote)

- Worked on a Tinder-like Android application with interest and hobby-based user matching.
 - Implemented real-time chat feature using **Firebase Realtime Database**, allowing users to chat on specific topics after matching.
 - Collaborated with the team to improve app flow, user experience, and real-time data handling.
-

PROJECTS

KU Buddy – University Student Companion

- **Modern UI & Architecture:** Engineered a reactive UI using **Jetpack Compose** and **MVVM architecture**, ensuring a scalable and maintainable codebase for handling academic data.
- **Offline-First Strategy:** Implemented local caching with **Room Database** to provide offline access to notes and syllabus, significantly optimizing performance and reducing server overhead.
- **Production Readiness:** Developed core modules for university notices and to-do management, and currently in close testing in Google Play Store.

Resell Panda (Live on Google Play Store)

- Old books buying and selling Android application.
- Implemented product listing, user interaction, and basic app flow.
- Published and maintained the app on Google Play Store.

EduManage – Coaching Center Management App (Ongoing)

- Multi-User coaching center management app with **Admin, Teacher, and Student** roles.
- Implemented role-based features like student management, attendance, and basic academic data handling.
- Integrated APIs and followed MVVM architecture to keep the app scalable and easy to maintain.

EDUCATION

Bachelor of Science in Information Technology

2023 – Present

Jamshedpur Co-Operative College
Kolhan University

CERTIFICATIONS & LEARNING

- Self-taught Android Development through YouTube and official Android documentation.
